JOINT FIELD TRIPS
WITH CLAUDE MOORE PARK

ENVIRONMENTAL EDUCATION field trips at Claude Moore Park provide an opportunity to introduce your students to the natural areas in their community. Topics such as ecology, seasonal changes and the study of local ponds are presented in living examples as we hike through the woods, wetlands, pond and meadow habitats of the park. An emphasis is placed on experiential learning with programs covering subjects that are included in the Virginia Standards of Learning. Fees apply. Call (703) 444-1275 for more information.

HISTORY AND SOCIAL SCIENCE field trips at Claude Moore Park allow students to step back into history. Sites explored within the park were used by American Indians, George Washington, Daniel Boone, French and Indian War soldiers, a War of 1812 courier and Union and Confederate troops during the Civil War. Virginia Standards of Learning are incorporated into field trips for 1st, 2nd, and 4th grade curriculums. Fees apply. Call (703) 421-6561 for more information.
